Working With Children Check Register Procedure

updated 2022

As per our Working with Children's Check (WWCC) all visitors to our school are required to sign in using our kiosk.

If a visitor does not hold a current WWCC and are not vaccinated or have a medical exemption they are unable to continue with their visit until they are able to present one.

We have a data sheet which records the name on the card, the card number, expiry date, the type of card being a volunteer or employment. It will also record your vaccination status or medical exemption status.

This data document is reassessed at the beginning of each year.
